HAD CONFIDENCE IN JANITOR

Landlady Knew to Whom to Apply When She Wanted References as to a Tenant.

Smith, just established in a new flat, happened to discover that the landlord—or landlady, rather—had not investigated the references he had furnished, upon her very particular request.

"Why didn't you ask anybody about me?" he asked.

"I did," was the answer. "I asked the janitor at your old place. I always do that. After finding out from the old landlord whether a tenant is good pay, I make a personal call on the janitor of the house he has been living in."

"But are janitors always to be trusted?"

"By no means. I can usually tell whether a man is truthful. I use my judgment in each case. It isn't hard to guess whether he has been unduly influenced by tips or the lack of them. Generally speaking, the janitor knows the tenant better than anybody else, and I prefer his estimate to that of the friends and business associates whose names are supplied as references."

Uric Acid in Your Food

Even dogs can eat too much meat. Certainly, many people "dig their graves with their teeth." Few get enough exercise to justify a meat diet, for meat brings uric acid. The kidneys try hard to get rid of that poison, but often a backache, or some other slight symptom, will show that the kidneys need help. The time to remedy them, is Dr. Doan's Kidney Pills.

A Missouri Case

John H. Phillips, 1219 Sullivan St., St. Louis, Mo., says: "I had inflammatory rheumatism and was in such bad shape I couldn't get around short use of Dr. Doan's Kidney Pills. I relieved the rheumatic pain in my back and other joints. Dr. Doan's Kidney Pills have fixed me up in good shape."

Sprains, Bruises, Stiff Muscles

Sloan's Liniment will save hours of suffering. For bruise or sprain it gives instant relief. It arrests inflammation and thus prevents more serious troubles developing. No need to rub it in—it acts at once, instantly relieving the pain, however severe it may be.

Here's Proof
Charles Johnson, P. O. Box 105, Lawrence, Kan., writes: "I sprained my ankle and dislocated my left hip by falling out of a third story window six months ago. I went on crutches for four months, then I started to use some of your Liniment, according to your directions, and I must say that it is helping me wonderfully. I threw my crutches away. Only used two bottles of your Liniment and now I am walking quite well with one foot. I never will be without Sloan's Liniment."

FOR MORE REVENUE

Administration Is Facing a Hard Problem.

Democratic Organ Favors the Restoration of the Duty on Sugar or Export Taxes Upon Grain and Meat.

It is difficult for the government to reduce expenses. We have been plunging for so long a time that the road to frugality is a hard road to travel and we fear it will never be traveled until some crushing disaster such as has overtaken Europe falls upon us and renders extravagance automatically impossible. Therefore, favoring the taxing power is all that remains to us.

It is doubtful if increased taxation on whisky, beer and tobacco will produce more revenue. Indeed the taxes upon those commodities have already been increased to the point where a reduction of revenue from those sources is threatened. Even if that were not true, further taxation, resulting in increased prices of the taxed commodities, might anger laboring men, the very class that consumes most of them.

In order to get the revenue with the least friction, it will be necessary to raise the income tax rates on the large incomes or restore the duty on sugar. The sugar duty is the only revenue-producing device that would not be grievously felt by the working classes of the country. They would pay it, of course, but so indirectly they would not be apt to feel it. Another indirect method would be to levy export taxes upon grain and meat. If it be true that the American consumer pays the import duty, then it must follow that the foreign consumer would pay an export duty.

But we warn our Democratic friends against bringing into the range of the income tax several millions of persons who are now exempt. What they would do at the polls—well, it is good policies to soft pedal on further income tax legislation.—Houston Post.

WHAT MR. TAFT OVERLOOKED

Problems That Democrats Have to Solve Are Results of Republican Management.

In dealing with an ex-president one feels like going gently and using only language with parliamentary sanction, but if President Taft's arrangement of the Democracy for failure to keep the platform pledge of economy is not impertinence, it is something bearing a blood relationship to that quality. The Democratic party received, as Republican legacies, the tariff question, the currency question, the Panama tolls snarl and the conservation question. The G. O. P. had done just nothing at all with the second and fourth of these, and had done exactly the wrong thing with the first and third. The Democracy proceeded to pass a tariff act such as the country had been promised, and to pass a great constructive currency and banking law, in a field where the Republicans had merely paltered and conversed for 40 years. It solved the Alaskan conservation question and undid the wrong of the Panama tolls act. Then came the war, with a whole jungle of new problems—war risk insurance, special financial needs, etc. And President Taft points to our still chaotic government finances—chaotic because of the Republican performances of 50 years—and reads to us a lesson of responsibilities undeserved and duties forgot! "Wal, b'gosh!"

Plenty of Funds to Invest.

If any proof were needed of the abundance of money awaiting safe investment the fact that the New York Central railroad's new bond issue of \$100,000,000 was largely oversubscribed would supply it. This rash to invest is especially significant because it comes so soon after the Pennsylvania railroad's very successful floating of a bond issue of \$40,000,000, which was five times oversubscribed. If a railroad has been carefully managed and is in good credit there seems to be no difficulty in its securing all the money needed for improvements or refunding operations. This state of affairs is in marked contrast to that of a few months ago, when the European war had so upset everything that no new financing was possible.

Coming Business Prosperity.

These are good reasons for business prosperity: Crops greater than ever in our history, and crop conditions more promising than we have ever known; big prices and plenty of money in our banks; tremendous foreign orders pouring into every large industrial center; the settlement of the railroad rate controversy, and the price of materials at a point where things can be bought cheaply.

Not Confined to Democrats.

A Republican contemporary refers to the existing division of sentiment among the Democratic senators on the shipping bill as "one of the reasons why the Democratic party should not be intrusted with national power." This is amusing when one recalls the bitter animosities between Presidents Roosevelt and Taft and a large proportion of the Republican senators, culminating in the historic split of 1912. The Democratic performance is not edifying, but it is in no way different from dozens of G. O. P. breaks.

Cheer for Democrats.

The Democrats of the West are cheerful, says the vice-president. With the return of prosperity there is every reason to believe that the Democratic party will be successful in the coming elections. If the European war comes to an end and business booms, it is not reasonable to believe that the voters would want to change the complexion of the administration. I look for an ending of the war, a return of prosperity, and the continuation in power of the Democratic party.

IF BACK HURTS CLEAN KIDNEYS WITH SALTS

Drink Lots of Water and Stop Eating Meat for a While if the Bladder Bothers You.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

MADE A LIGHTNING CHANGE

Occasion When Lord Salisbury Wasted Little Time in Getting into Dinner Costume.

The late Lord Salisbury, says Count Paul Vassili in his book, "Behind the Veil at the Russian Court," shared with the rest of his family the defect of being rather careless in his dress and general appearance. Lord Odo Russell, who long represented England at Berlin, told Count Vassili this amusing little anecdote in illustration of that characteristic:

"One evening," says the count, "Lord Odo and I were chatting about Lord Salisbury's attitude toward his personal appearance—not ill-naturedly, for it is doubtful which of us had the greater admiration for the remarkable statesman in question—and Lord Odo laughingly mentioned to me his surprise when one day, after the dinner bell of the embassy had been rung he found Lord Salisbury, who was living there, still busy at work in his study."

"He rushed out," said the ambassador, "and before I had time to put aside the papers on the table, literally in three minutes, was back again ready for dinner. Now in that time he could not even have washed his hands, yet there he was in evening clothes! I could not help asking him how he managed to dress so quickly. 'Oh, my dear Russell,' he said, 'any one can change his coat at once, and I had black trousers on already.'"

"For a number of years," wrote a Kansas lady, "I felt sure that coffee was hurting me, and yet I was so fond of it, I could not give it up. At last I got so bad that I made up my mind I must either quit the use of coffee or die."

"Everything I ate distressed me, and I suffered severely most of the time with palpitation of the heart. I frequently woke up in the night with the feeling that I was almost gone—my heart seemed so smothered and weak in its action. My breath grew short and the least exertion set me panting. I slept but little and suffered from rheumatism."

"Two years ago I stopped using the coffee and began to use Postum, and from the very first I began to improve. It worked a miracle! Now I can eat anything and digest it without trouble. I sleep like a baby, and my heart beats strong and regularly. My breathing has become steady and normal, and my rheumatism has left me."

"I feel like another person, and it is all due to quitting coffee and using Postum, for I haven't used any medicine and none would have done any good as long as I kept drinking with coffee." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville." In pinks.

Postum comes in two forms:

Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious, and cost per cup about the same.

Canadian Wheat to Feed the World

The war's fearful devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and there is an unusual demand for Canadian wheat. Canada's invitation to every industrious American is therefore especially attractive. She wants farmers to make money and happy, prosperous homes for themselves while helping her to raise immense wheat crops.

You can get a Homestead of 160 acres FREE and

other lands can be bought at remarkably low prices. Think of the money you can make with wheat at its present high prices, where for some time it is liable to continue. During many years Canadian wheatfields have averaged 20 bushels to the acre—many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax.

Mixed farming is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, markets convenient, climate excellent.

Military service is not compulsory in Canada, but there is an extra demand for farm labor to replace the many young men who have volunteered for the war. The Government this year is using farmers to put extra acreage into grain.
